## 2. Approve Draft November 16, 2023, Central Florida LEPC Meeting Minutes

Actions Requested:	Approve Draft November 16, 2023, Central Florida LEPC Meeting Minutes
Motion	Ashley Shive
Second	Jenna Downing
Approved:	Passed

## 3. New Business

- a. Curtis introduced Jerri Sackett to LEPC attendees. Jerri comes to the Central Florida Regional Planning Council as the Emergency Management and Community Projects Senior Planner. Jerri has previously served on the LEPC in her capacity with Polk County Emergency Management.
- b. Ashley Shive with A-C-T Environmental and Infrastructure had no new business to report.
- c. A ChemLock and CSET presentation by Todd Nicholas with Department of Homeland Security, Cybersecurity and Infrastructure Security Agency included information on ChemLock services. CISA offers live and on-demand training to assist owners, operators, facility personnel, and retailers with understanding the threats that chemicals pose and what security measures can be put into place to reduce the risk of dangerous chemicals being weaponized.

# CENTRAL FLORIDA REGION LOCAL EMERGENCY PLANNING COMMITTEE

*DeSoto, Hardee, Highlands, Okeechobee, and Polk Counties*

- e. The Florida SERC and LEPCs are requesting Fire Departments/Municipalities with Perfluoroalkyl and poly-fluoroalkyl substances (PFAS) contaminated Firefighting Foam to report quantity on hand for potential disposal. The SERC is trying to secure funding for pickup and disposal at no cost to the end user. Curtis encouraged attendees to include him when submitting the requested information. This will assist the LEPC in keeping track of the PFAS in the region.
- f. Political Subdivisions required changes to notify the State Watch Office regarding Mass Migration and Hazardous Materials Release. These are two new categories for notification.
- g. Burt McKee, Polk County ERC Coordinator was awarded the Thomas Yatabe award at the recent SERC meeting for his dedication to all things hazardous materials. Burt took a moment to thank everyone for their nominations and expressed his passion for this work in the region.
- h. Polk County requested the LEPC to provide a future tabletop exercise with Polk County Landfill. Burt McKee clarified that lithium-ion batteries are a concern and shared that 60% of truck fires are caused by lithium-ion batteries.
- i. Incident Reports were included in the agenda package to LEPC members. Curtis encouraged attendees to go through and review the incidents in the region.

## 4. Subcommittee Reports

- a. Membership
  - i. New Alternate Member Application
    - 1. Jasson Drinkard, Florida Department of Environmental Protection. This application will be submitted to the State in April.
- b. State Emergency Response Commission (SERC) for Hazardous Materials
  - i. Recap Jan 2024 SERC, TTF, and LEPC Chairs and Coordinators Meetings
    - 1. Appointed new primary members:
      - a. Joseph De Luna, FDEP SE District
    - 2. Appointed new alternate members:
      - a. None
  - ii. Next SERC, TTF, and LEPC Chairs and Coordinators Meetings
    - 1. SERC's Training Task Force will be on April 11, 2024 in St. Augustine, FL

2. SERC's LEPC Chairs and Coordinators will be on April 11, 2024 in St. Augustine, FL
3. SERC will be on April 12, 2024 in St. Augustine, FL

c. Training

- i. Upcoming Florida Division of Emergency Management Trainings for the Old FDEM Region 4 and 6 can be found online at <https://trac.floridadisaster.org/trac/trainingcalendar.aspx>.
- ii. TRANSCAER  
Upcoming TRANSCAER trainings have changed making some previous attendees must re-take the class and can be found online at <https://www.transcaer.com/training/training-events/us-fl>

**5. Comments from Members/Public – Please announce yourself before you speak.**

Burt shared information on ICS Certification in Polk County. Burt encouraged those who may be participating in the landfill exercises to have to have their ICS-100 certification completed so everyone that participates in any exercise will be on the same terms. It would be helpful to complete the Tier 2 reports to ensure the data is up to date.

Sean McGinnis from Lakeland Electric wanted to emphasize the importance of Burt receiving the Thomas Yatabe award. Burt is a great example to the community for new members coming to the region.

**6. Next CF-LEPC Meeting**

May 23, 2024 at 9:30am at Westlake Epoxy in Lakeland. There are 13 spots available for in-person attendance, so RSVPs are critical to reserving a place in-person. All other members will need to attend virtually.

**7. Adjourn**

Dan Bartle adjourned the meeting.

Respectfully submitted,

---

Dan Bartle, LEPC Chairman

This meeting was duly advertised in the Feb 9, 2024 issue of the FLORIDA ADMINISTRATIVE REGISTER, Issue: 50/28.

## MEMORANDUM - # 08-24

TO: Members of the State Emergency Response Commission  
(SERC) for Hazardous Materials

FROM: Kevin Guthrie, Chairman

SUBJECT: Hazardous Materials Incidents Report

**SUMMARY:** The attached tables and graphs provide information on all hazardous materials incident reports received by the State Watch Office for the period of up to January 1, 2002, through February 29, 2024. Incident reports are reviewed by staff on a daily basis for compliance with Section 304 and other provisions of the Emergency Planning and Community Right-to-Know Act (EPCRA) program. They can also be used to identify facilities that may have an obligation to report under the Risk Management Planning (RMP) program.

The "Potential Section 304 Investigations" information in Table 1 is listed by Local Emergency Planning Committee (LEPC) District. These are incidents involving the release of an Extremely Hazardous Substance (EHS) or a Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) chemical at a fixed facility. In order for an incident to be covered under Section 304, the EHS or CERCLA chemical must meet or exceed its designated Reportable Quantity (RQ) and have potential for offsite exposure. Those facilities found not to be in compliance with all Section 304 reporting requirements are referred to the Division of Emergency Management's General Counsel for possible enforcement action. The incidents listed in Table 2 cover hazardous materials incidents for which evacuations, injuries and/or deaths were reported. Also note that the official cause of death is determined by the medical examiner's office. This process may take up to 90 days. The numbers for these tables were obtained from the State Watch Office incident reports, as well as other sources. This information is still being recorded and is available upon request.

The figures in Graph I show the total number of hazardous materials incidents per quarter (including Section 304) reported to the State Watch Office for the period of January 1, 2002, through February 29, 2024. The figures in Graph II compare incidents that occurred at fixed facilities to those involving transportation-related incidents during the period of December 1<sup>st</sup>, 2023, through February 29<sup>th</sup>, 2024. Note that the incidents in Graph II have been further refined to list petroleum, LNG, and propane incidents.

## MEMORANDUM - # 06-24

TO: Members of the State Emergency Response Commission  
(SERC) for Hazardous Materials

FROM: Kevin Guthrie, Chairman

SUBJECT: Risk Management Planning (RMP) Program Audit/Inspection Work Plan for  
May 2024 through March 2025

**SUMMARY:** The RMP Program's annual work plan prioritizes and identifies the facilities recommended for audits/inspections based on the audit selection criteria found in the Florida Accidental Release Prevention and Risk Management Planning (ARP/RMP) Act of 1998, Chapter 252, Part IV, Florida Statutes (F.S.). Accompanying this memorandum is a list of facilities that have been selected for audits/inspections.

**BACKGROUND:** As the implementing agency for the Clean Air Act Amendments of 1990, Section 112(r), and pursuant to the Florida ARP/RMP Act, the Division of Emergency Management is required to conduct audits/inspections of facilities that have been identified as "high priority" due to the possibility of an accidental release of regulated substances that could impact the public health and the environment. The determination of these "high priority" facilities is based on the following audit selection criteria in the Florida ARP/RMP Act, facility location and proximity to population centers, chemical characteristics and inventories, accident history, process incident history, compliance of, or inspection by, allied agency programs and the results of stationary source self-audits.

The audit/inspection work plan is comprised of 30 facilities. Considering the statutory criteria, these facilities should receive priority audit/inspection consideration. Please note that additional facilities may be added to the attached list of facilities as a result of accidental releases that occur after the audit/inspection work plan is approved.

**RECOMMENDATION:** It is recommended that the SERC consider for approval and adoption, the annual RMP Program Audit/Inspection Work Plan.
