6. Comments from Members/Public – Please announce yourself before you speak

The Department of Homeland Security would like to present at the next meeting. They would like to share information on the training drills and exercises offered to the LEPC.

Burriss Logistics has recently been purchased by another logistics company and is suspending their current membership pending new ownership interest in the LEPC.

CENTRAL FLORIDA REGION LOCAL EMERGENCY PLANNING COMMITTEE

DeSoto, Hardee, Highlands, Okeechobee, and Polk Counties

Mary Hartney emailed a report for Curtis to read in her absence. She reported the FFAA appreciated the great information provided by US DHS' Bing Crosby, Todd Nichols and Matt Currie about voluntary security programs. They presented it to FFAA's Fertilizer Advisory Committee meeting on October 31, 2023 and it was a valuable and helpful presentation.

7. Next CF-LEPC Meeting

d. February 22, 2024 at 9:30am – Tentative based on approval above

8. Adjourn

Dan Bartle adjourned the meeting.

Respectfully submitted,

Dan Bartle, LEPC Chairman

This meeting was duly advertised in the Nov 2, 2023 issue of the FLORIDA ADMINISTRATIVE REGISTER, Issue: 49/214.

The Florida SERC and LEPCs are requesting Fire Departments/Municipalities with Perfluoroalkyl and poly-fluoroalkyl substances (PFAS) contaminated Firefighting Foam to report quantity on hand for potential disposal. The SERC is trying to secure funding for pickup and disposal at no cost to the end user. Pickup will most likely be a box truck for the totes/gallon containers and a vacuum truck for bulk retrieval. To cut down on costs a central county pickup will be selected excluding bulk pickup by a vacuum truck.

- PFAS quantity on hand- Gallons?
- How is the PFAS currently being stored in what container?
- Any special considerations on picking up?
- Location/address of PFAS?
- Contact info of Fire Department and return this to your LEPC liaison or SERC@em.myflorida.com

STATE OF FLORIDA DIVISION OF EMERGENCY MANAGEMENT

Ron DeSantis, Governor

Kevin Guthrie, Executive Director

November 20, 2023

As required in section 252.351(3), Florida Statutes, political subdivisions shall provide prompt notification to the State Watch Office (SWO) of the Florida Division of Emergency Management (FDEM) when an incident on the list of reportable incidents has occurred within its geographical boundaries, following the initial response to the incident.

FDEM hereby gives notice that effective December 20, 2023, and pursuant to Section 252.351, Florida Statutes, the criteria for reporting existing incident types shall be amended to include incidents related to:

- **Mass Migration**
- **Hazardous Materials Release**

A brief overview of the changes to the criteria for the above referenced incident types is provided below to assist political subdivisions in determining if an incident meets the new reportable criteria:

Mass Migration shall include any known migrant landings and/or interdictions within and across Florida waters.

Hazardous Materials releases or fires associated with Lithium-Ion Batteries that may involve health issues, injuries or fatalities; or require protective actions, evacuations, or sheltering of affected population (in-place or other).

For a full list of reportable incidents, please visit <https://www.floridadisaster.org/swo>.

Please direct any questions regarding the additions to the reportable incident list to Ian Guidicelli at (850) 354-3044 or Ian.Guidicelli@em.myflorida.com.

MEMORANDUM - # 24-24

TO: Members of the State Emergency Response Commission
(SERC) for Hazardous Materials

FROM: Kevin Guthrie, Chairman

SUBJECT: Hazardous Materials Incidents Report

SUMMARY: The attached tables and graphs provide information on all hazardous materials incident reports received by the State Watch Office for the period of up to January 1, 2002, through November 30, 2023. Incident reports are reviewed by staff on a daily basis for compliance with Section 304 and other provisions of the Emergency Planning and Community Right-to-Know Act (EPCRA) program. They can also be used to identify facilities that may have an obligation to report under the Risk Management Planning (RMP) program.

The "Potential Section 304 Investigations" information in Table 1 is listed by Local Emergency Planning Committee (LEPC) District. These are incidents involving the release of an Extremely Hazardous Substance (EHS) or a Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) chemical at a fixed facility. In order for an incident to be covered under Section 304, the EHS or CERCLA chemical must meet or exceed its designated Reportable Quantity (RQ) and have potential for offsite exposure. Those facilities found not to be in compliance with all Section 304 reporting requirements are referred to the Division of Emergency Management's General Counsel for possible enforcement action. The incidents listed in Table 2 cover hazardous materials incidents for which evacuations, injuries and/or deaths were reported. Also note that the official cause of death is determined by the medical examiner's office. This process may take up to 90 days. The numbers for these tables were obtained from the State Watch Office incident reports, as well as other sources. This information is still being recorded and is available upon request.

The figures in Graph I show the total number of hazardous materials incidents per quarter (including Section 304) reported to the State Watch Office for the period of January 1, 2002, through November 30, 2023. The figures in Graph II compare incidents that occurred at fixed facilities to those involving transportation-related incidents during the period of September 1st, 2023, through November 30th, 2023. Note that the incidents in Graph II have been further refined to list petroleum, LNG and propane incidents.

MEMORANDUM - # 25 - 24

TO: Members of the State Emergency Response Commission
(SERC) for Hazardous Materials

FROM: Kevin Guthrie, Chairman

SUBJECT: Update of Staff Activities and Reports by Section

SUMMARY: This is to provide the SERC with a status report on the number of reports filed under the Emergency Planning and Community Right-To-Know Act (EPCRA) and the Florida Accidental Release Prevention and Risk Management Planning (ARP / RMP) Act. It also provides an update on staff activities. The following is a breakdown of the number of notifications or reports that have been filed under EPCRA, by section, and the number of hazardous materials incidents reported to the State Watch Office.
